Victorian-Inspired Holiday Centerpiece

Floral, décor, and styling by [Kio Kreations](#)

Supplies needed – basic version:

- (3) varying height (but same diameter) cylinders ([Crate and Barrel](#) sells the perfect ones for about \$10 for all 3 pieces)
- 12" grapevine wreath (can be purchased at craft stores)
- 12" charger plate
- (1-2) bags of fresh cranberries
- (3) Floating candles (make sure they are smaller diameter than your vases, can be purchased at [Save on Crafts](#))
- (1-2) boxes of assorted glass ornaments
- Kiwi branches
- Water

Additional supplies needed – upgraded version:

- Holly
- Magnolia Leaves
- Button Flowers (by [RBK Creations](#))
- Fabric Ranunculus (by [RBK Creations](#))

Additional supplies needed – advanced version:

- (3) Mercury glass votive holders – gold mercury glass can be purchased at [Luna Bazaar](#)
- Assorted flowers and foliage (we used roses, spray roses, Veronica, boxwood, Magnolia, Snow on the Mountain, parrot tulips, China berries, seeded eucalyptus and Hypericum berries)
- Ribbon or floral tape

Directions – basic:

1. To give your wreath more texture and dimension, add some kiwi branches by weaving them into the grapevine
2. Center the wreath on top of the charger plate
3. Place the 3 cylinder vases in the center of the wreath on the charger plate
4. Fill the vases with 1-2 handfuls of fresh cranberries
5. Fill the vases with water leaving 1.5-2 inches of space from the top
6. Add your floating candles on top of the cranberries (if you added too much water, remove it with a turkey baster—do not get the candlewick wet or it will not light!)
7. Fill the gaps around the vases the middle of the wreath with assorted glass holiday ornaments. (Skip this step if you are doing the Advanced version of the centerpiece)

Upgraded:

Add holly, magnolia leaves, button flower and fabric flower accents into the ornaments making for a fuller look.

Advanced:

1. Fill your mercury glass votives $\frac{3}{4}$ of the way full of water
2. Create 3 flower/foilage/button flower bundles with your floral assortment
3. Tie your bundle with ribbon or floral tape to keep it together
4. Place your votives in the gaps in between the cylinder vases in the middle part of the wreath
5. Add your bundles into the votives
6. Fill the remaining gaps in with smaller-scale glass ornaments
7. Accent with holly, magnolia leaves and more button and fabric flower accents
